

Company Profile

Your trusted partners in
agricultural postharvest solutions

a lifelong relationship

Quadra Machinery is your go-to intergrator for complete fruit and vegetable processing and packaging machinery in the Middle East and Africa. Strategically based in Lebanon and Cyprus, we speak your language, understand the dynamics of the region, and are within close proximity to our clients.

We work closely with you to **envision** your project, **understand** your needs, **design** a complete solution, and **provide** the needed equipment and machinery.

With over 50 years of experience across our European partners in the postharvest sector, we are your experts in the field. Our line of work involves integrating solutions that include:

- washing, processing
- peeling, slicing, dicing
- grading, sorting
- packaging, storage

We focus on getting **premium value** for your produce

PROCESSING

All the essential steps to process your produce

Quadra offers the solutions you need to completely treat and prepare your produce for all markets. Based on your desired end-product, we design the complete solution to process your produce accordingly.

Washing, sterilizing, and sorting of cut produce

Treatment, drying, and freezing solutions covering wide varieties

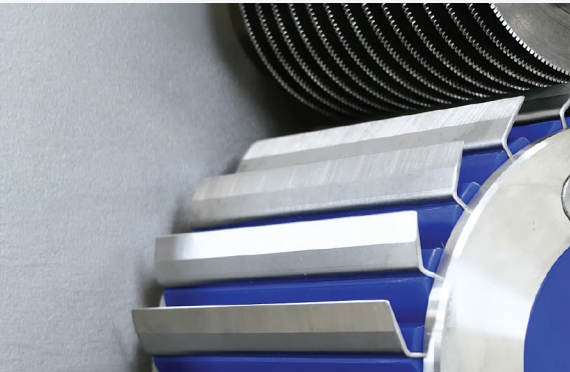

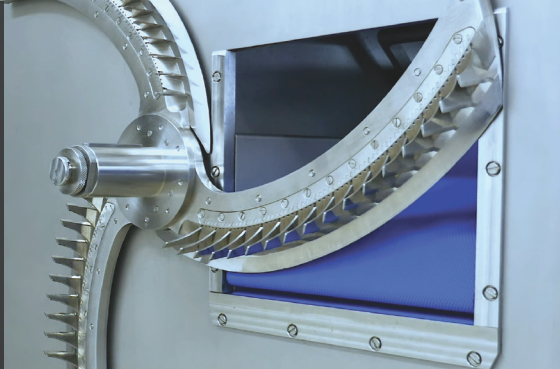

De-stoning, washing, polishing, and grading of root vegetables

CUTTING

Precise machines to achieve all types of cuts

Our machines are known for their high precision and low maintenance costs. With our range of cutting machines, you can achieve whichever cut you desire in different shapes, sizes, and capacities.

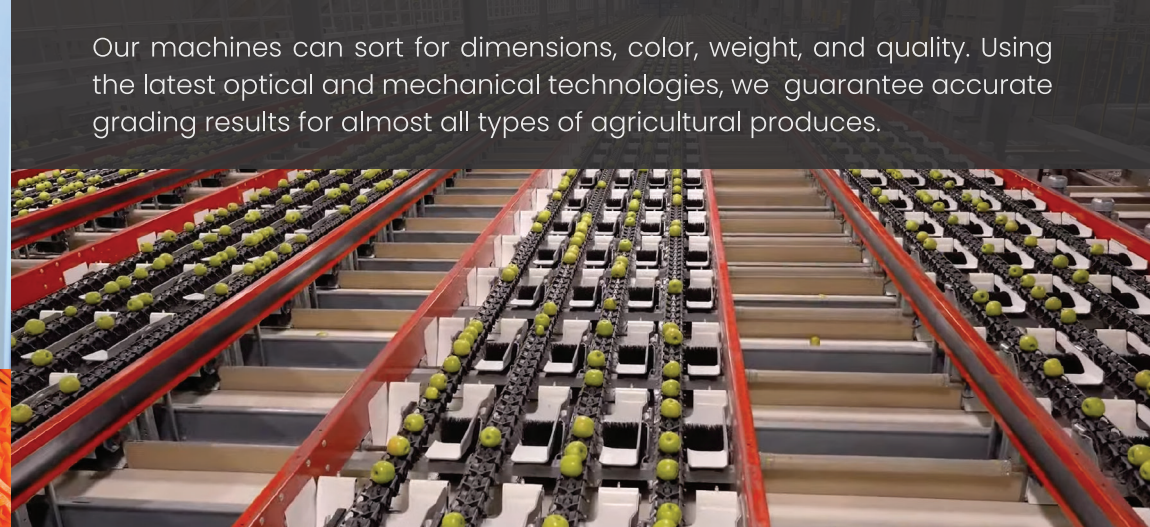

As we promise to provide complete solutions, we offer other matching machines which include peeling, washing, drying, and packing of fresh cut produce for high quality markets worldwide.

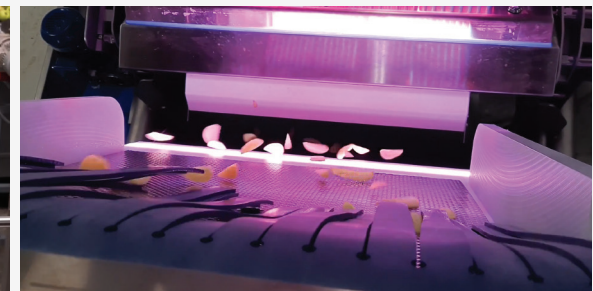

SORTING

Accurate machinery to sort different types of produce

Our machines can sort for dimensions, color, weight, and quality. Using the latest optical and mechanical technologies, we guarantee accurate grading results for almost all types of agricultural produces.

Whole Fruits and Vegetables

Cut, Frozen, and Processed Produce

Salads, Herbs, and Leaves

Nuts, Seeds, Beans, and Grains

PACKAGING

Getting your produce to the market in the right way

Our **net bagging** machines can pack many fruits and vegetables of various shapes and sizes in several options with labels, clips, handles, and more. We also provide the print work with your custom branding.

Our **vertical packing** machines allow you to pack different types of products such as salads, French Fries, frozen goods, and more into efficient packages which include trays, pillow bags, pouches, and others.

We supply **flowpack, tray sealing, thermoforming, and shrink wrapping** machines to pack your produce as you require. Our models vary in capacity and capability to offer you maximum flexibility.

We provide **container filling** machines capable of packing cut produce and small whole fruits into many types of containers of varying shapes and sizes, all according to your needs.

Choose from several types of **vacuum packing** machines depending on your specific application. Ensure that your produce lasts longer without the need for artificial additives or solutions.
